Was Busting a Bronco When It Kicked Him—Immense Watermelons Raised.

Artesia, N. M., Aug. 23.—At the bronco busting contest at the ball park, while Shirley Hooten was endeavoring to put a cover over a bronco's eyes the animal struck him with his hind legs, breaking an arm and five ribs. Hooten fainted and it was some time before he came to. He ran a stable yard at this place.

H. H. Henning of Albuquerque, secretary of the territorial bureau of immigration, and R. E. Wilson of Chicago, industrial agent of the Santa Fe, visited Artesia to inspect this section in the coming land show at Chicago. At the Commercial club they outlined their plans and received pledges of financial support and of an exhibit of the products of this district.

Six guns, most of them Colt's revolvers, were stolen at night from the display window of the hardware department of Joyce-Fruit company. A corner of the plate glass that had been cracked was cut out, making room to insert an arm that, with the aid of some contrivance, brought the opening of the gun. Several boxes of ammunition were also taken.

Eddy county institute has adjourned, after a successful meeting. The teachers were given an auto ride by the citizens. A. J. Wood and family departed to take up their residence at Burton, Kan.

About 15 warrants are out for the arrest of persons that took in the bronco busting contest by looking over the fence from an elevated position in Pardon-Simple's lumber yard.

Will Open Next Week; Another Big Ranch Deal Has Been Recorded.

Deming, N. M., Aug. 23.—The fall term of Deming's schools will begin September 6 with professor J. Frederick Doderer in charge as superintendent. Owing to the limited amount of space, due to the increased number of scholars, the overflow and sixth grades will be taught in the Christian church until the new building is ready for occupancy. Professor Doderer is at the present time in California, but will return to Deming August 27 and begin active preparations for the work that is to be done during the ensuing term.

Trost & Trost, of El Paso, are drawing plans and specifications for the new high school building, and work will commence on the new building as soon as the contract is let.

The roster of teachers for the ensuing year is: Superintendent, J. Mrs. Leota Gaudin has gone to El Paso for a few days' visit.

DRY FARMERS MEET AT DALHART, TEXAS

The Farmers Have So Much Broom Corn They Don't Know What to Do With It.

Dalhart, Texas, Aug. 23.—The Dalhart Commercial club has arranged for entertainment of the Great Plains Dry Farmers congress that meets here today, Wednesday and Thursday of this week. The Felton opera house has been secured as the place of meeting and the town will turn itself loose to show the visitors a good time. Banquets, smokers, auto trips, entertainments of every description will be the program. Expert speakers are here to deliver interesting talks on live agricultural subjects. Farmers from far and near are present.

Homer Rowe, president of the Commercial club, has been instructed to secure information on the subject of broom corn. The reason for this is the fact that Dalhart has a yield of broom corn this year that is beyond all expectations. It was an experiment this spring in putting out the seed to determine the practicability of this product in this territory. The result has been more than expected and stamps the Dalhart country as a broom corn territory. Every farm is covered with it and no one knows what to do with it.

Santa Fe, N. M., Aug. 23.—The territorial supreme court in the case of John H. Rapp, appellant vs. E. B. Venable, probate clerk of Grant county, upheld the territorial statute prohibiting saloons within five miles of any government sanatorium. Rapp having applied for a liquor license at Central within five miles of the Port Bayard sanatorium, Grant county.

In City of Roswell, appellee, vs. Robert Ingersoll, appellant, it upheld the power of city councils to order the paving of streets and sidewalks, ruling that the latter district improvement law did not abrogate the old statute but merely supplemented it by giving property owners the right to petition for and to vote improvement districts.
